

Cancun Eats

Bienvenido a Cancun eats restaurant & bar

The hearty warmth of authentic Mexican food is hard to beat! While this cuisine has regional variations, there are certain key ingredients that you'll find in nearly any dish you try. Spices and Herbs, Avocados, Beans, Crema, Limes, Tomatoes, Rice, Tortillas, Corn these ingredients are the hallmarks of Mexican style of cooking.

How to eat your Tacos :

Sizzling Fajitas

Burritos

Quesadilla's

Chimichangas

Tostada

To eat this crunchy meal the cleanest way, start by holding the taco shell in the center, applying a little finger pressure around an inch above the base, also known as the "meat line" grip your taco from above, not below the taco.

Take your first small bite at the end of your taco, then another two smaller bites on the same side, inching your way toward the center of the shell. Now, flip the taco and start on the other end, taking another three bites.

Now, you're left with two decently-sized center bites and an intact shell, and it's time for the grand finale - finish it off!
